AMASS

Through our company we are engaged in the field of furniture and lighting. A design company, founded in 1969 by George Nikolaou, Amass is one of the symbols of European design around the world.

The company's Greek origins are fundamental to its manufacturing processes and supply chain - we utilize the talent of local craftsmen, in order to garner business for local communities and take advantage of material sources within Greece to create proximity between material supply and final manufacture. Hand-craftsmanship contributes to a reduction in industrial energy consumption.

We are powered by an international team of researchers and designers. The team has been extremely successful in understanding the real need of the customers, going beyond the current trends and always offering the best in terms of quality, at the most competitive prices.

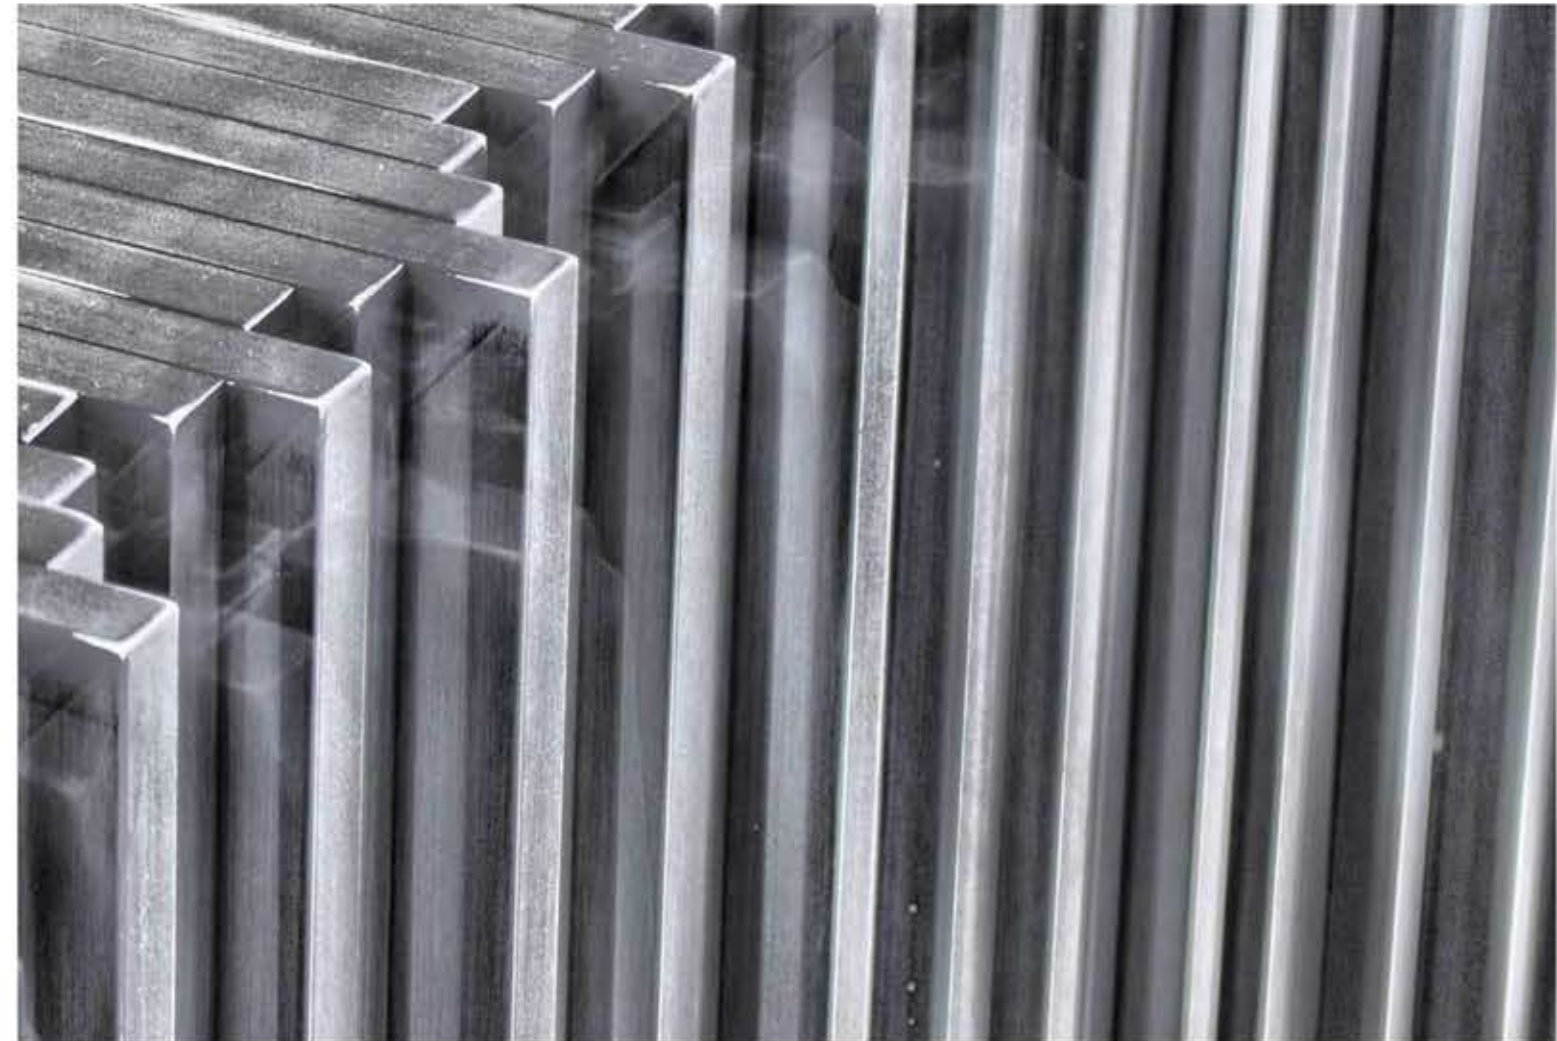

table ad

The ad table is made of solid wood and metal base.

TAB.AD.X1390

Table top Solid oak or beech wood - edge 42mm

Table base Metal

Use Indoor or Outdoor

Dim.(cm) 200X80XH75 | 220X80XH75 | 240X90XH75
